D	Adapter Leica pin female / 5/8" male
E	Magnetic level bracket

INSTRUCTIONS FOR INSTALLATION AND USE

1° STEP

Assembly of SferaZERO or TargetZero

1

Place the GNSS receiver
in the support

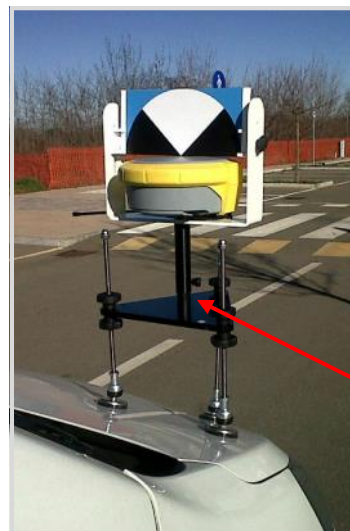

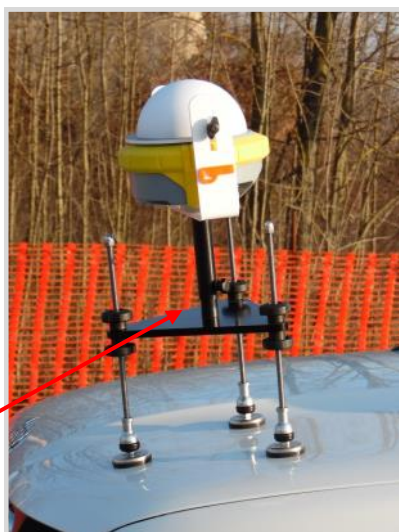

2

Screw the adapter **D** to the GNSS receiver, in
order to block the SferaZERO or TargetZERO

3

Pull down the Semisphere or the Target until they reach the receiver.
Lock the two lateral screws

- Install the MAGNETIC LEVEL BRACKET on the vehicle hood
- Screw the adapter **C** at bolt 5/8" present in the centre of the Magnetic Level Bracket
- Place the SferaZERO or TargetZERO on the Magnetic level bracket. Check the locking of the adapter **D** lock
